

INFLATABLE RING

ASSEMBLY & CARE

BIG JOE LUX COLLECTION

ASSEMBLY

STEP 1

Unfold and lay your Lux Inflatable Ring on a flat, dry surface. Locate and open the Velcro window on the bottom of the ring.

STEP 2

Remove the first screwtop on the valve inside the Velcro window to inflate. Insert nozzle of included inflation pump into valve and inflate to desired firmness.

STEP 3

Firmly close the screw top onto the valve. Close Velcro window and adjust creases in fabric cover as needed.

To deflate, remove the first and second screw tops on the valve.

FABRIC & CARE

Our Premier Mesh fabric is made of 100% recycled polyester and treated to withstand UV rays, outdoor elements, and chlorine. The bottom of your inflatable's cover is made of heavy duty, drainable PVC mesh.

To clean, unzip and remove the cover.

Brush off loose dirt, then launder with mild detergent on the gentle cycle. Allow to air dry.
